

Basic Healthcare Certificate

Overview

This Certificate teaches the basic skills needed for employment in an entry level position in a healthcare setting. Students gain knowledge and skills that provide a basis of preparation to pursue further training and employment in healthcare.

Certificate Learning Outcomes

Students who successfully complete this certificate will be able to:

1. Evaluate healthcare occupations and education/training requirements and produce a Career Education Plan in the healthcare field.
2. Explain the basic medical terms/words.
3. Obtain certification for Health Care Provider level 1-person and 2-person CPR/AED skills for adults, children and infants.
4. Demonstrate a basic understanding of body systems.
5. Apply basic healthcare knowledge in a workplace setting.

Students in this program will learn to;

- Provide exceptional customer service in a professional manner through caring and respectful interaction with patients, families, and the healthcare team.
- Maintain a solid knowledge base for the various components of the healthcare system.
- Knowledge and understanding of patient privacy in accordance with HIPAA guidelines.
- Basic knowledge of human anatomy and physiology.
- Ability to understand verbal and written instruction and communicate clearly and effectively.
- Assist with or provide care services as directed, using proper body mechanics or assistive devices when lifting, moving, or transporting patients.
- Performs First Aid and initiates emergency response procedures as required.

Career Pathway Certificate: Basic Healthcare Certificate

TBCC guarantees, at a minimum, the following courses each quarter for the completion of this Career Pathway Certificate.

A student can transfer in or take other courses that meet the requirements, though this is discouraged.
